

PC Configuration Assignment

Introduction

This document outlines the specifications of my personal computer, detailing the hardware and software components that define its performance and capabilities.

1. General Information

Model: ThinkPad T460

Manufacturer: Lenovo

2. Hardware Specifications

2.1 Processor

Type: Intel Core i5 6th Gen

Speed: 2.3 GHz

Cores: 2

Threads: 4

2.2 Memory (RAM)

Capacity: 8GB

Type: DDR3

Speed: 2133 MHz

2.3 Storage

Primary Storage:

Type: SSD

Capacity: 256 GB

Secondary Storage:

Type: NIL

Capacity: NIL

3. Software Specifications

3.1 Operating System

Name: Windows 10

Version: 22H2

3.2 Installed Software

Productivity Tools: Microsoft Office, Google Drive

Creative Software: Adobe Photoshop, VS Code

Games: Counter Strike, Need for Speed

4. Performance

Usage Scenarios: Light Gaming, General Use

Conclusion

This document provides a detailed look at my Lenovo ThinkPad T460's hardware and software capabilities, offering insights into its suitability for various tasks. Knowing these specifications is useful for evaluating its current performance and planning any future upgrades if needed.
